DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The instantly claimed method for manufacturing a metal salt of a radical-polymerizable compound is neither disclosed nor fairly suggested by the closest prior art: Ito et al (JP 47-031924 11-1972, English translation). Ito teaches (Translation, page 3, 1st full paragraph) a method for the manufacture of an alkali metal salt of acrylic acid by its formation in aqueous solution and precipitation therefrom. Ito neither discloses nor fairly suggests that the aqueous solution containing a water-soluble inhibitor be distilled under reduced pressure in order to recover the acrylate salt. The instantly claimed process is therefore patentable over the teachings of Ito, the closest prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. All Post-Allowance correspondence concerning this application must be mailed to the following address: BOX ISSUE FEE, COMMISSIONER FOR PATENTS, WASHINGTON, DC 20231 or fax them to The Office of Patent Publications at 703-308-5083 in order to expedite the handling of such correspondence (amendments
